## **Notes to Condensed Interim Consolidated Financial Statements**

### **1) STATUTES OF INCORPORATION AND NATURE OF ACTIVITIES**

International Prospect Ventures Ltd (the "Company" or "International Prospect"), incorporated on February 18, 2010 under the Business Corporations Act of British Columbia, is involved in the process of exploring, evaluating and promoting its mineral properties and other projects.

The head office of the Company is located at 152 Chemin de la Mine École, Val-d'Or, Québec, J9P 7B6. The Company's registered and records office is located at #530 - 355 Burrard Street, Vancouver, B.C. V6C 2G8. The Company also has exploration offices located at 2864 Chemin Sullivan, Val-d'Or, Québec, J9P 0B9. The Company's common shares are trading on the TSX Venture Exchange under the trading symbol "IZZ".

As at March 31, 2021, Golden Valley Mines Ltd. ("Golden Valley"), a significant shareholder, held a 13.44% (December 31, 2020 – 13.44%) interest in the Company.

### **2) GOING CONCERN**

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and the basis of the going concern assumption, meaning the Company will be able to realize its assets and discharge its liabilities in the normal course of operations.

The Company's ability to continue as a going concern depends upon its ability to obtain necessary financing to fund its prospection operations, its projects and continued support of suppliers and creditors. The Company's ability to raise enough financing to meet these objectives cannot be determined at this time. The Company's business involves a high degree of risk and there is no assurance that the Company will be successful in discovering economically recoverable deposits on its mineral properties. Furthermore, the Company has not yet generated any income or cash flows from its operations and there is no assurance that the business will be profitable in the future.

These material uncertainties cast significant doubt regarding the Company's ability to continue as a going concern. The carrying amounts of assets, liabilities and expenses presented in the financial statements and the classification used in the financial statements have not been adjusted as would be required if the going concern assumption was not appropriate. Those adjustments could be material.

### **3) BASIS OF PRESENTATION**

These condensed interim consolidated financial statements, approved by the Board of Directors on May 21, 2021, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including IAS 34, "Interim Financial Reporting". These condensed interim consolidated financial statements as well as the related notes should be read in conjunction with the annual audited consolidated financial statements of the Company for the year ended December 31, 2020.

#### *Subsidiaries*

These condensed interim consolidated financial statements include the accounts of International Prospect and its subsidiary, Valroc Ventures Pty Ltd (“Valroc”). All intercompany balances, transactions, income and expenses and gains or losses have been eliminated on consolidation. Subsidiaries are consolidated where the Company has the ability to exercise control. Control of an investee exists when the Company is exposed to variable returns from the Company’s involvement with the investee and has the ability to affect those returns through its power over the investee. The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the elements of control.

### **4) RECENT ACCOUNTING PRONOUNCEMENTS**

At the date of authorization of these consolidated financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective and have not been adopted early by the Company. Management anticipates that all of the pronouncements will be adopted in the Company’s accounting policy for the first period beginning after the effective date of each pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Company’s financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company’s financial statements.

In May 2020, the IASB issued a package of narrow-scope amendments to three standards (IFRS 3 “Business Combinations”, IAS 16 “Property, Plant and Equipment” and IAS 37 “Provisions, Contingent Liabilities and Contingent Assets”) as well as the IASB’s Annual Improvements to IFRS Standards 2018 - 2020. These amendments to existing IFRS standards are to clarify guidance and wording, or to correct for relatively minor unintended consequences, conflicts or oversights. These amendments are effective for annual periods beginning on or after January 1, 2022. The Company is assessing the potential impact of these narrow-scope amendments.

**5) JUDGMENTS, ESTIMATES AND ASSUMPTIONS**

The preparation of these condensed interim consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the amounts reported in the condensed interim financial statements and accompanying notes. Management believes that the estimates used in the preparation of the condensed interim consolidated financial statements are reasonable; however, actual results may differ materially from these estimates. The areas involving significant judgments, estimates and assumptions have been detailed in note 6 to the Company’s audited financial statements for the year ended December 31, 2020.

*Uncertainty due to COVID-19*

The duration and full financial effect of the COVID-19 pandemic is unknown at this time, as are the measures taken by governments, companies and others to attempt to reduce the spread of COVID-19. Any estimate of the length and severity of these developments is therefore subject to significant uncertainty, and accordingly estimates of the extent to which the COVID-19 may materially and adversely affect the Company’s operations, financial results and condition in future periods are also subject to significant uncertainty.

In the current environment, the assumptions and judgements made by the Company are subject to greater variability than normal, which could in the future significantly affect judgments, estimates and assumptions made by management as they relate to potential impact of the COVID-19 and could lead to a material adjustment to the carrying value of the assets or liabilities affected. The impact of current uncertainty on judgments, estimates and assumptions extends, but is not limited to, the Company’s valuation of its Exploration and Evaluation assets, including the assessment for impairment and impairment reversal. Actual results may differ materially from these estimates.

**9) EQUITY**

*a) Share Capital*

**Authorized**

Unlimited number of voting common shares without par value.

**Issue share capital**

The change in issued share capital for the year was as follows:

*Share-based payments*

The Company has adopted an incentive stock option plan pursuant to which directors, officers, employees and consultants are eligible to receive incentive stock options. Under the terms of this plan, the aggregate number of shares issuable upon the exercise of all options granted thereunder may not exceed 10% of the Company's common shares issued and outstanding at the time of grant. The exercise price of each option is fixed by the Board of Directors but shall not be less than the closing price of the Company's share on the trading day immediately prior to the date of grant less any discount permitted by the TSX Venture Exchange (the "Exchange"); if no sales were reported, it shall be the sales closing price on the last trading day immediately prior to the date of grant on which sales were reported. The vesting period of the options shall be determined by the Board of Directors, in accordance with the rules and regulations of the Exchange. All share-based payments will be settled in equity. The Company has no legal constructive obligation to repurchase or settle the options in cash.

A summary of changes in the number of incentive stock option is presented as follows:

	<b>For the three months ended March 31, 2021</b>		For the year ended December 31, 2020

**10) LOSS PER SHARE**

Loss per share has been calculated using the weighted average number of common shares outstanding as follows:

	For the three months ended March 31,	
	<b>2021</b>	2020
Net loss for the period	\$ (112,023)	\$ (39,967)
Weighted average number of common shares - Basic	<b>33,264,237</b>	27,103,128
Dilutive effect of stock options	-	-
Weighted average number of common shares - Diluted	<b>33,264,237</b>	27,103,128
Basic loss per share	\$ (0.003)	\$ (0.001)
Diluted loss per share	<b>(0.003)</b>	(0.001)

For the three months ended March 31, 2021, potential dilutive common shares from 1,565,000 (2020 – nil) incentive stock options have not been included in the loss per share calculation as they would result in a reduction of the loss per share.

**12) CAPITAL MANAGEMENT POLICIES AND PROCEDURES**

The Company’s objectives in managing capital is to safeguard its ability to continue its operations, to increase the value of the assets of the business and to provide an adequate return to owners. These objectives will be achieved by identifying the right exploration prospects, adding value to these projects and ultimately taking them through to production either with partners or by the Company's own means or sale. The Company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue new shares to improve its financial performance and flexibility. When financing conditions are not optimal, the Company may enter into option agreements or other solutions to continue its exploration and evaluation activities or may slow its activities until conditions improve.

The Company monitors capital on the basis of the carrying amount of equity. Capital for reporting period under review is summarized in note 9 and in the statement of changes in equity. The Company is not subject to any externally imposed capital requirements.

**13) FINANCIAL ASSETS AND LIABILITIES**

*Categories of financial assets and liabilities*

The carrying amounts and fair values of financial instruments presented in the consolidated statements of financial position are as follows:

	As at March 31, 2021		As at December 31, 2020	
	Carrying amount	Fair value	Carrying amount	Fair value
<b>Financial assets</b>				
Cash and cash equivalents	\$ 306,090	\$ 306,090	\$ 468,143	\$ 468,143
	<b>\$ 306,090</b>	<b>\$ 306,090</b>	<b>\$ 468,143</b>	<b>\$ 468,143</b>
<b>Financial liabilities</b>				
Accounts payable and accrued liabilities	\$ 4,195	\$ 4,195	\$ 19,371	\$ 19,371
Due to related parties	76,861	76,861	77,224	77,224
	<b>\$ 81,056</b>	<b>\$ 81,056</b>	<b>\$ 96,595</b>	<b>\$ 96,595</b>

The carrying value of cash and cash equivalents, due to related parties and accounts payable and accrued liabilities is considered to be a reasonable approximation of fair value because of the short-term maturity of these instruments.

Financial assets and liabilities measured at amortized cost for which a fair value is provided in the consolidated statements of financial position are presented in accordance with the fair value hierarchy. This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities at the reporting date;
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement. There have been no significant transfers between Level 1, 2 and 3 in the reporting periods. The techniques and evaluation methods used to measure fair value were not changed compared to previous periods.

## **14) FINANCIAL RISKS**

The Company is exposed to various financial risks in relation to its financial instruments. The main types of risks the Company is exposed to are credit risk and liquidity risk.

The Company focuses on actively securing short to medium-term cash flow by minimizing the exposure to financial markets. The Company does not actively engage in the trading of financial instruments for speculative purposes.

The Company's main financial risk exposure and its financial risk management policies are as follows:

### *Credit risk*

Credit risk relates to the risk that one party to a financial instrument will not fulfill some or all of its obligations, thereby causing the Company to sustain a financial loss. The Company's maximum exposure to credit risk is limited to the carrying amount of cash of \$306,090 as at March 31, 2021 and \$468,143 as at December 31, 2020. The risk related to cash is considered negligible as the Company is dealing with a reputable financial institution whose credit rating is excellent.

### *Liquidity risk*

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk management serves to maintain a sufficient amount of cash and to ensure that the Company has potential financing sources. The Company establishes budget and cash estimates to ensure it has the necessary funds to fulfil its obligations.

Accounts payable and accrued liabilities are due within less than 90 days. The Company's cash significantly exceed the current cash outflow requirements.

## **15) COMMITMENTS**

### *Exploration Expenditure Commitment*

In order to maintain the Company's interest in mining tenements in Australia, the Company is committed to meet the annual minimum expenditure of approximately \$363,000 (or AUD\$379,000) under which the tenements were granted.

**16) SUBSEQUENT EVENT**

On May 6, 2021, the Company announced that it entered into a mining property purchase agreement (the “Agreement”) for the acquisition of the remaining 60% undivided interest in the Beartooth Island Uranium Prospect. In accordance with the terms of the Agreement, the Company will issue 300,000 of its common shares and make a cash payment of \$10,000 to the vendor. With the Company already holding 40% interest, on completion of the acquisition, the Company will own 100% of the Beartooth Island Uranium Prospect.
